RESPONSE TO RESTRICTION REQUIREMENT

Dear Sir:

This is in response to the Office Action dated May 29, 2003.

The Examiner is requiring restriction to one of the following inventions under 35 U.S.C. 121:

I. Claims 1-11, 35, drawn to an apparatus having a gas manifold located at a processing unit; and

II. Claims 22, 25-28, 36-37, drawn to a mixer having one inlet port coupled to two gas sources.

Applicant hereby elects, with traverse, to prosecute Group I, Claims 1-11 and 35. The election is made with traverse since the Examiner has already issued substantive Office Actions on all the claims and thus has failed to show that

examination of all the claims would present a serious burden on the Examiner.

Specifically, MPEP § 803, entitled "Restriction-When Proper", sets forth:

There are two criteria for proper requirement for restriction between patentably distinct inventions:

(A) ...; and

(B) **There must be a serious burden on the examiner if restriction is required ...** (pg. 800-4, August 2001, emphasis added.)

The Examiner asserts:

Because these inventions are distinct for the reasons given above **and have acquired a separate status in the art because of their recognized divergent subject matter**, restriction for examination purposes as indicated is proper. (Office Action, page 3, emphasis added.)

The Examiner's statement is respectfully traversed. MPEP § 803 further sets forth:

For purposes of the initial requirement, a serious burden on the examiner may be *prima facie* shown **if the examiner shows by appropriate explanation of separate classification, or separate status in the art, or a different field of search as defined in MPEP § 808.02.**

That *prima facie* showing **may be rebutted by appropriate showings or evidence by the application.** (pg. 800-4, August 2001, emphasis added.)

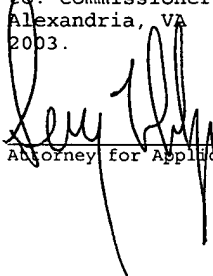

Applicant notes that the United States and Patent Trademark Office has already issued two substantive Office Action dated January 19, 2001 and July 3, 2001 on all pending claims. This demonstrates a lack of a serious burden on the Examiner to examine all pending claims. Further, in the June 18, 2002 Notice of Allowability, all pending claims (i.e., Claims from **both** Groups I and II) were found allowable. Applicant submits that the Examiner is requiring cancellation of claims that have already been examined and found to contain allowable subject matter. Accordingly, restriction is not

proper and Applicant hereby requests reconsideration and withdrawal of the restriction requirement.

If the Examiner has any questions relating to the above, the Examiner is respectfully requested to telephone the undersigned Attorney for Applicant(s).
